Education

Academic

Ph.D in Electronic Music Composition 2016
Ionian University, Corfu, Greece
Department of Music Studies, Rating «First-class Honours»,
Thesis Title: *Kronos: Electronic Audio Game based on Electronic Music Composition in Educational Applications*

M.A. in Music Composition 2004
Anglia Polytechnic University, Music Department, Cambridge, UK

Diploma in German Literature 2001
National Kapodistrian University of Athens, Greece
Department of German Language and Literature, Rating «Excellent»

Other

Degree in Classical Guitar 2000
State Conservatoire «Rhythm»

Degree in Harmony 2000
State Conservatoire «Rhythm»

Degree in Counterpoint 2000
State Conservatoire «Rhythm»

Abitur Certificate in German Language 1996
German School of Athens

High School Certificate 1996
German School of Athens

Cambridge Certificate of Proficiency in English Language 1993
British Council

- Playful Learning
- Electronic Audio Games
- Augmented Reality Audio
- Data Sonification
- Audio Accessible Interfaces
- Electronic Music Synthesis

Research Experience

Post-doctoral Researcher

2019-2020

Department of Audio & Visual Arts, Ionian University

Research Project Title: «Immersive Adventure Game for the Promotion of Local Creativity, Art and Tradition in the Town of Corfu»

October 2019 - June 2020

Operational Program “Ionian Islands 2014-2020” (grant MIS number: 80405), co-financed by Greece and the European Union (European Social Fund (ESF)).

Contribution to the project: concept design, game mechanics design, sound design.

Post-doctoral Researcher

2018 - 2019

Department of Audio & Visual Arts, Ionian University

Research Project Title: «Augmented Reality Audio Games»

June 2018 - December 2019

Operational Program Human Resources Development, Education and Life- long learning, Priority Axes 6, 8, 9, Act "Supporting Researchers with emphasis on New Researchers" (grant MIS number: 5007016), co-financed by Greece and the European Union (European Social Fund - ESF)

Contribution to the project: concept design, game mechanics design, sound design, experiment design, bibliographical research, results analysis and dissemination.

Teaching Experience

Academic Experience

Laboratory Teaching Staff Member Department of Audio and Visual Arts, Ionian University	2020-today
Academic Scholar Department of Audio and Visual Arts, Ionian University	2019-2020
Adjunct Lecturer Department of Audio and Visual Arts, Ionian University	2017-2019

Academic Courses

Audio Processing Software Design (MA)

Postgraduate Programme "Sonic Arts and Audio Technologies" offered by the Department of Music Studies and the Department of Audio and Visual Arts of the Ionian University.

The subject matter of this course extends from the theoretical analysis of digital sound synthesis and processing techniques to the development of relevant modules on the open-source programming platform "Pure Data"

Content and Practicum in Secondary Education

Pedagogical and Didactical Sufficiency Program (PDSP),
Department of Audio and Visual Arts, Ionian University.

The subject matter of this course deals with the development and analysis of a Lesson Plan for art-oriented courses, and its application in the context of students' practicum in secondary education school units.

Teaching of Art and Creative Technologies

Pedagogical and Didactical Sufficiency Program (PDSP),
Department of Audio and Visual Arts, Ionian University.

The subject matter of this course deals with the combination of learning theories, gamification methodologies, and cinematography practices for the enrichment of didactical scenarios through technology-centered interactive activities.

Sound Creation in Educational Applications

Pedagogical and Didactical Sufficiency Program (PDSP),
Department of Audio and Visual Arts, Ionian University.

The subject matter of this course refers to reviewing and utilizing audio-interactive technology towards the development of interactive and game-based educational scenarios.

Augmented Technologies in the Curriculum

Pedagogical and Didactical Sufficiency Program (PDSP),
Department of Audio and Visual Arts, Ionian University.

The subject matter of this course investigates Mixed Reality technologies for the implementation of interactive applications in formal and informal education.

Interactive Environments

The subject matter of this course deals with using the visual programming language "Pure Data" for embedding audio-interactive applications into online interactive systems.

Audio Technology

Department of Audio and Visual Arts, Ionian University.

The subject matter of this course includes the presentation and analysis of the impact, potential, and restrictions of technological media on artistic creation and performance.

Digital Sound Processing

Department of Audio and Visual Arts, Ionian University.

The subject matter of this course includes the design and application of processing algorithms on digital audio signals using the open-source programming platform "GNU Octave".

Algorithmic Composition and Sound Structure

Department of Audio and Visual Arts, Ionian University.

The subject matter of this course includes the theoretical analysis and practical development of audio synthesis modules based on formalised automated systems using the open-source programming platform “Pure Data”.

Electroacoustics & Spatial Acoustics

Department of Audio and Visual Arts, Ionian University.

The subject matter of this course refers to understanding the technical specifications and functions of specialized equipment for the design of audio installations, as well as the behavior of acoustic space in the acoustic quality.

Dissertation Supervision

Main Supervisor (MA)

2019-2020

Interdisciplinary Postgraduate Programme

“Sound Arts and Technologies” (SONARTS),

Ionian University, Departments of Music Studies and Audio and Visual Arts.

Dr. Rovithis supervised the dissertation “Generative Sound Synthesis for the Creation of an Interactive Soundscape” including the conceptual and practical implementation of an interactive audio environment on the “Pure Data” programming platform.

Special Consultant and Reviewer (MA)

2019

Interdepartmental / Interdisciplinary Postgraduate Programme “Advanced

Computer and Communication Systems”, Aristotle University of Thessaloniki

Dr. Rovithis reviewed the dissertation “Educational Environment for Sound and Music Synthesis” including the implementation of a series of video tutorials about the programming platform “Pure Data”.

Workshops & Seminars

Space Audissey

2019-2020

Musix Lab - The Friends of Music Society (Athens Megaron Music Hall)

Workshop for late primary and early secondary education students that employs a series of original audio game activities in physical space, laptops and tablets to familiarize participants with sound collage techniques, while being introduced to concepts from the subject of Astronomy.

Digital Kids Orchestra

2016-2017

Hellenic-American Educational Foundation (Athens College)

Workshop for elementary school students to be introduced to basic music concepts by experimenting with musical instruments as physical objects and iPad applications respectively.

The workshop was also delivered at the Athens Digital Arts Festival in May 2017.

Music Games in a Digital World

2015

Hellenic-American Educational Foundation (Athens College), Summer Camp Workshop for elementary school students to be introduced to basic music concepts by individually and/or collectively playing music games on the iOS mobile platform.

Sound Design

2006-2012

“Mikro Polytexneio” Foundation for the Arts

Series of seminars introducing participants of various age groups and musical background to basic concepts of digital sound design. Each series focuses on different directions, such as soundscape synthesis, live performance, interactive installations, music for theatre, and photography augmentation.

Other Teaching Experience

English Language: Gmat Verbal Section

Private lessons preparing students for the verbal section of the Graduate Management Admission Test (Gmat).

German Language: diplomas B1, B2 & C1

Private lessons preparing students for acquiring the B1, B2 and C1 german language certifications.

Guitar Lessons

Private lessons in classical, acoustic and electric guitar, including song accompaniment, solo improvisation techniques, and preparation for admission to music universities.

Organizational Experience

Curating the exhibition of audiovisual works and interactive installations of graduate and post-graduate students, and phd candidates, for the international **Audiovisual Arts Festival 2022** of the Ionian University (Depts. of Audiovisual Arts, and Music Studies). Additional role in the organization of the festival's volunteers.

Curating the exhibition of audiovisual works and interactive installations of undergraduate students for the international **Audiovisual Arts Festival 2019** of the Ionian University (Depts. of Audiovisual Arts, and Music Studies). Additional role in the organization of the festival's volunteers.

Participation in organizing the international joint **ICMC-SMC 2014 Conference** «Music Technology meets Philosophy» in Athens, Greece, as the personal assistant of honored guests Jean-Claude Risset and John Chowning.

Product Development

I.D.E.A. Inclusive Digital Educational Amusement

2017-2020

Dr. Rovithis is co-founder and art-director of the creative team I.D.E.A., which deals with designing and implementing educational games in physical and digital space, while focusing on enhancing the inclusion of students with learning disabilities through new technologies.

Kronos

2015

Educational audio role-playing game, in which players are introduced to concepts and practices of electronic music composition and guided to construct and customize a digital musical instrument, while following the game's storyline. It was developed as the practical part of Dr. Rovithis' Ph.D. dissertation and presented at the Cultures of the Digital Economy Conference 2016 (Anglia Ruskin University, Cambridge, UK), and at the Audiovisual Festival 2017 (Ionian University, Athens, Greece).

Hearing the Magnetic Storm

2016

Interactive audio application (mac, pc) for the sonification of scientific data, specifically the impact of the sun's radiation on Earth's magnetic field during a solar storm. It was presented at the Athens Science Festival 2016, and at the 8th Panhellenic Conference on Acoustics 2016.

Explorer's Path

2015

Educational audio game (mac, pc) for introducing elementary school students to melodic dictation. It was tested at the Hellenic-American Educational Foundation to investigate the educational efficiency of sound interaction. The game was later donated to that same institution.

Noize Games

2014

Educational audio games (mac, pc) on the concept of noize, based on timbre recognition and memory. They were developed on behalf of the Department of Audio & Visual Arts (Ionian University) and presented at public schools in Corfu in the context of the International Noize Awareness Day, in order to raise the pupils' awareness on acoustic ecology.

the Freq

2012

Accessible audio game (iPhone) based on pitch recognition. It was released on AppStore in 2011, whereas its computer version (mac, pc) was presented at the Athens Gaming Forum 2012 (co-organized by the British Council and Athens Information Technology) and donated to the Panhellenic Association for the Blind in the following year.

Distinctions

The audio game «**the Freq**» was selected in the top 10 games at the Athens Gaming Forum 2012 for its innovative and accessible gameplay. (April 2012)

The game development team «**Audio Based Games**» (ABG), managed by Dr. Rovithis, was selected in the 3 most innovative startup suggestions within the business incubator initiative «Ekinisi Lab» for supporting the entrepreneurship of young researchers. (June 2014)

Installations

LUCA the last universal common ancestor 2018

Audiovisual Arts Festival, Ionian University, Corfu

Four-channel interactive audio installation that interprets sonically the evolutionary process of living beings from simple, unicellular to complex, multicellular organisms, by means of the sound's fidelity and the processing algorithms' complexity.

Kronos 2017

Audiovisual Arts Festival, Megaron Concert Hall, Athens

Interactive audio installation, in which users are introduced to concepts and practices of electronic music composition by solving riddles and accomplishing tasks within the context of an electronic role-playing game.

Hearing the magnetic storm 2016

Athens Science Festival, Technopolis, Athens

Interactive audio installation that aims at informing and raising awareness about

the phenomenon of magnetic storms by sonically representing the alteration of Earth's magnetic field caused by solar energy.

The hidden poets garden

2012

Asomaton Theatre, Thisseio, Athens

Performance based on processing pre-recorded recitation of poems and live improvisation with sound producing objects.

Original Vs Copy

2010

Design Walk Festival, Monastiraki, Athens

Interactive audiovisual installation based on the collage of fragmented pre-recorded interviews, aiming to represent the complexity of human existence. The installation's space was scenographically prepared with threads interconnecting excerpts from the interviews written on the walls to enhance the audience's immersion.

The Box

2008

Booze Cooperativa, Kolokotroni, Athens

Interactive audiovisual installation based on time-travelling to different eras. The installation took place in a specially constructed chamber (time-machine) to enhance the audience's immersion.

Rockaby

2007

Bios, Pireos, Athens

Interactive audiovisual installation based on Samuel Beckett's respective play. Sound was stochastically de- and re-constructing the pre-recorded narration, while space was prepared with props from the life of the play's character to enhance the audience's immersion.

Laptop Hug

2002

Babble's Festival, APU University, Cambridge, UK

Projection of audiovisual material (video) criticizing people's excessive dependency on technology.

Hangover

2002

Kettle's Yard Gallery, Cambridge, UK

Audio installation with processed fragments of pre-recorded human speech randomly collected during a night-out.

Software Expertise

Music Production and Processing Software:

- Max/MSP
- PureData
- GNU Octave
- Adobe Audition
- Steinberg Cubase
